

Effective Working Area:

Vision: 1000MM*1000MM

Non Vision: 1000MM*1200MM

KD1012-SY

Double Head High Speed Laser Cutter With Camera

INTRODUCTION

Laser cutting technology is ideal enough to smoothly and effectively cut many kinds of materials without causing it any harm overall.

The KD1012-SY High Speed Laser Cutter With Camera is the laser cutter combined with the advanced large vision software system of KASU laser. It can automatically recognize the features of the printed or embroidered fabrics, leather, and other flexible materials and then cut with super high accuracy and efficiency.

With the double laser cutting heads installed in dual separate guide rails, KASU Laser's high-speed laser cutter with top Canon camera KD1012-SY can realize position cutting of printed or embroidered materials with super high precision and speed.

APPLICATIONS

Color Embroidery

Embroidery Label

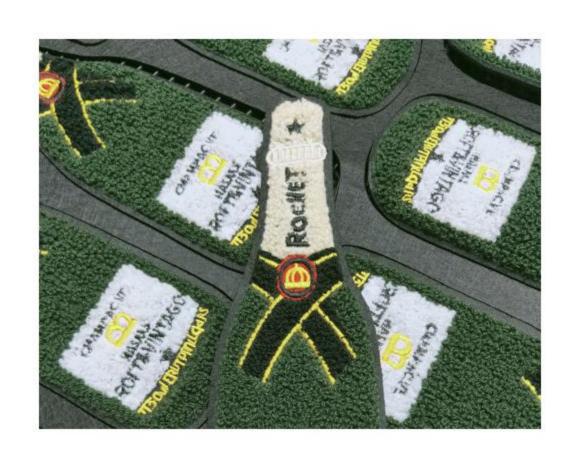

Lace Patch

Plush Sequin Applique

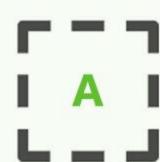

DTF Vinyl

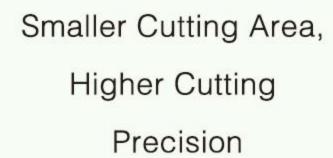

Towel Embroidery Applique

KEY FEATURES

Doubled Cutting Efficiency,
Higher Productivity

Both Vison and Non-Vision Working Modes

Stable and 24 Hours Running

Super Simple to Operate

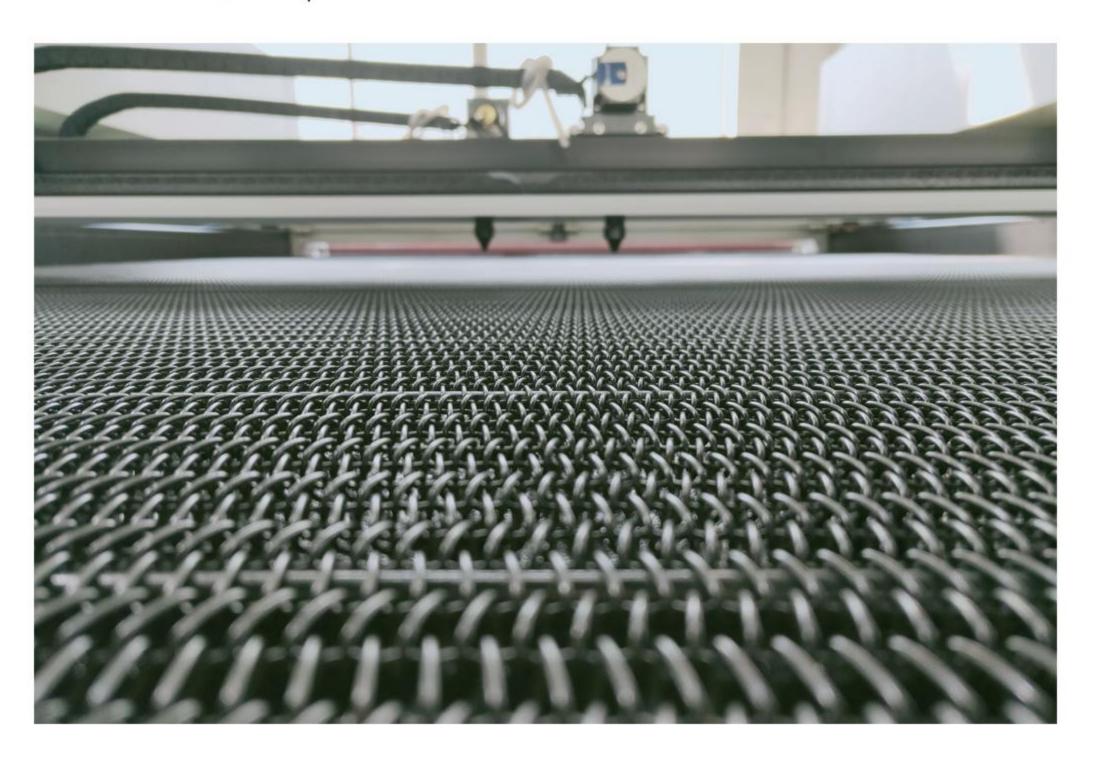

Self-Owned Large Vision Software System

KASU owns the full property of the large vision software system. Together with the Canon EOS Camera with 2,400 Mega Pixels, the KD1012-SY camera laser cutter's vision software automates the whole graphic detection and position cutting process.

Auto Feeding Conveyor Table

Compared with KD1080–F's fixed honeycomb table, KD1012–SY model is adopting a chain conveyor belt, which can auto–feed both the sheet and roll materials right after the laser cutting process. And production can be doubled due to this automation process.

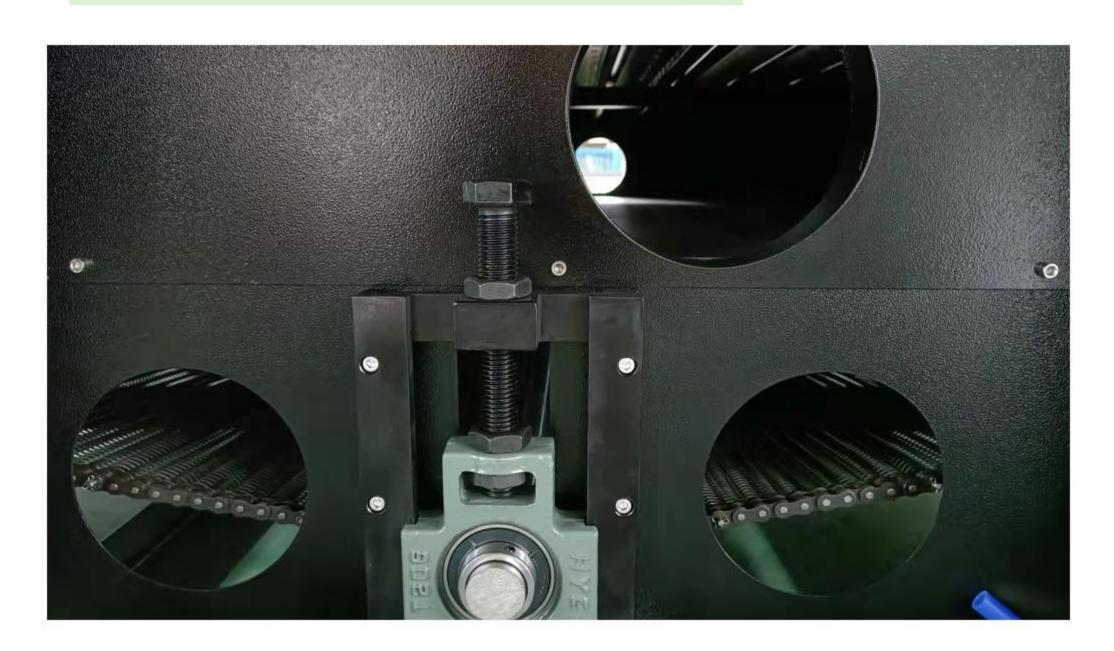

Dual-Heads With Dual-Guiderails

Compared with KD1080-F1 single head camera laser cutter with honeycomb table, the innovative invention of KD1012-SY ensures the two heads of the camera laser cutter can cut different designed patterns at the same time. Productivity can be doubled while cutting precision is the same.

Three–Axis Structure Design

The triangle structure is more stable and more convenient to adjust the conveyor belt. Reasonable cavity design enhances the effect of fume exhausting. And it offers bigger room than two-axis structure and reduce the risk of potential fires. Also bigger room makes the dust exhausting job much easier for you.

TOP QUALITY SPARE PARTS

Control Card

Cutting Head

Glass Tube

Laser Power

AC Water Chiller

Exhausting Fan

Air Pump

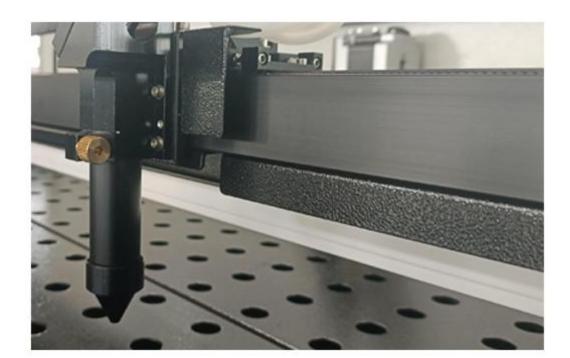

Lense

Stainless Steel Screw

Motion Module

Guide Rail

Spare Parts Tool Kit

To keep your laser cutter running for years, we provide you high quality spare parts verified by our QC process. And we offer replacing spare parts to our clients at COST PRICE just to ensure you have the best using experience and lowest maintenance cost.

SAFETY DESIGN

Following the safety standards, we try everything to make a reliable machine to protect both your operator and your laser machine.

All-Round Safe Cover

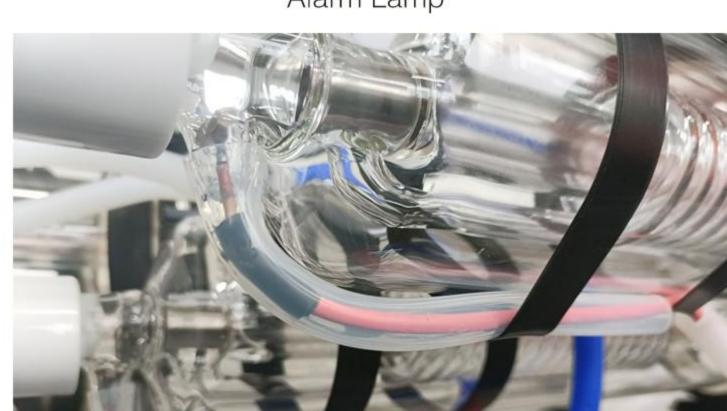

Alarm Lamp

Emergency Button

Switch Built-in Design

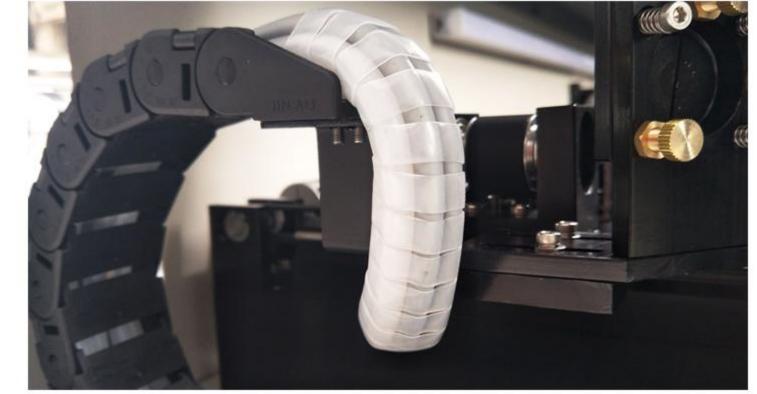

High-Voltage Wire Insulation

Insulation Support Frame

AUTO ACTIVE FEEDER

Machine Size: 2210mm*530mm*920mm

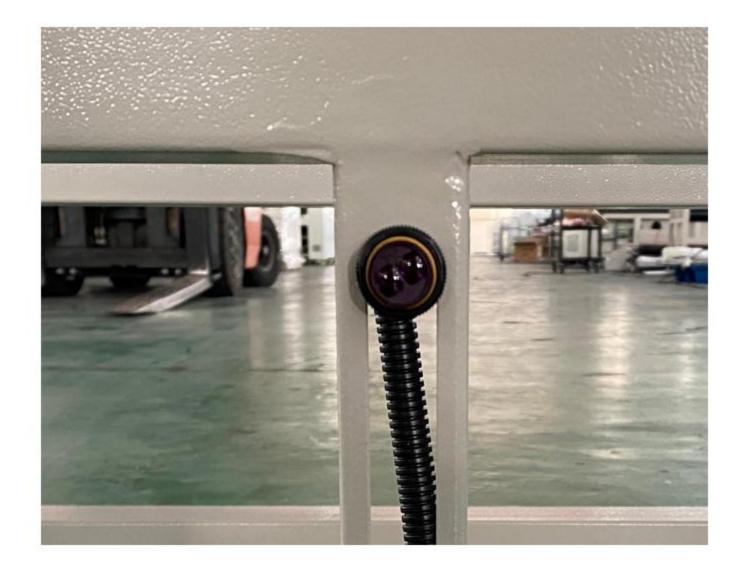

KASU's automatic active feeder is specially designed for auto-feeding roll-to-roll fabric or other soft materials. Reasonable structural design can be adapt to a variety of fabrics.

It is equipped with high sensitivity sensor switch to sense the presence or absence of the materials and then decide to start feeding or stop. It has an independent control system and can be connected to any brand of the laser machine. Branded motion system and other quality electric spare parts can ensure 24 hours stable running.

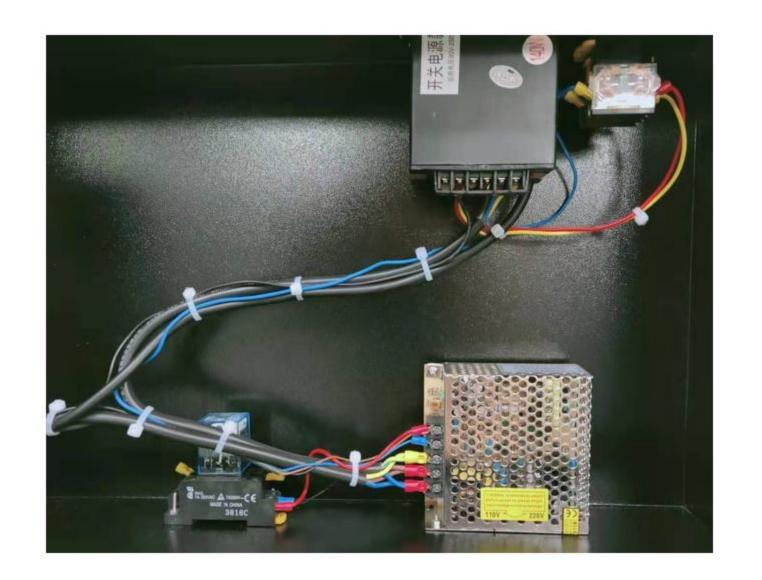

KEY FEATURES

High Temperature Hardened Steel Frame Structure

High Sensitivity Sensor Switch

Independent Control Board

Width Adjustable Fabric Stopper

Well Designed Fabric Roller With Friction

Strong Universal Wheels & Machine Feet

MACHINE PARAMETERS

Working Area	1800MM*1450MM Vision Mode 1800MM*1600MM Non-Vision Mode	Software	KASU
Laser Type	Glass CO2 Laser Tube	Working Speed	<1000 MM/S
Laser Power	80/100/130/150W	Power Supply Requirements	AC220V±5% 50Hz/60Hz 1Phase
Heads of Laser	Dual Heads	Format Supported	AI\BMP\PLT\DXF\DST
Dimensions with Wood Package	1.71*2.28*1.32M / 1.71*0.95*0.92M	Positioning Accuracy	±0.1MM
Gross Weight	750KG	Operating Temperature	minus 10°C~45°C
Motion System	Hybrid Step-Servo Motor	Operating Humidity	5–95%
Cooling System	5200 Industrial Water Chiller	Total Power	<1.5KW (Excluding exhauster)
